WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut with a sharp knife against a square end stop:
nine sleeves 294 long (plain rungs) and four 260 long
(stand-off rungs 3, 6, 9 and 12).
Check it is closed-cell: a cut end must not take up water.
Fits: slides over the rung (stretch fit on 28.6) before
the blocks and bushes; centred, 2 clear of the bush
flanges or blocks at each end. A bead of polyurethane
adhesive inside each end stops it turning.
