WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut with a sharp knife against a square end stop:

nine sleeves 294 long (plain rungs) and four 260 long (stand-off rungs 3, 6, 9 and 12).

Check it is closed-cell: a cut end must not take up water.

Fits: slides over the rung (stretch fit on 28.6) before the blocks and bushes; centred, 2 clear of the bush flanges or blocks at each end. A bead of polyurethane adhesive inside each end stops it turning.

CANALRUNG

github.com/BoujeeEnjinia1701/canalrung

Float sleeve: making sketch (make 13)
